| 1  | 5       | Trash from The Compulsive Reader let me borrow books 1-3 of the Gallagher Girl series, and I was so excited to have them. One of my favorite book settings is boarding school, and that's exactly where these... The main premise of these books is that there is a school for girls who are training to be spies. This means plenty of cool classes and tasks (all spy related, of course). These kept my attention the most, becaus... I really enjoyed this book and am glad I have the next few in the series to read right away - I want to know what else they learn about spying and more about the creative spy school that Aly Carter has created!   | en-US    | 753           |
| 2  | 4       | Still loving these books and flying through them. With the risk of spoiling, I hope we get a full explanation of Bill's disappearance. I felt unfulfilled.  | en-GB    | 154           |
| 3  | 3       | This was an interesting book, but I would have liked more personal stories and less technical information. Also, since I didn't get to sit down and read this at one sitting, it was difficult to remember who some...  | eng      | 526           |
| 4  | 4       | Book was good. As always, we were upset when the movie didn't follow, not that we were all that surprised.  | eng      | 106           |
| 5  | 5       | Este livro foi uma montanha-russa de encontros. Enquanto o primeiro livro tinha descriçao a mais e o segundo livro tinha partes completamente desnecessarias, a mim parece-me que o Larsson encontrou o eq... Este foi o meu favorito dos 3 livros da trilogia Millennium e consegue condensar tudo o que Larsson tem de bom na sua escrita - as personagens iniciais; as complexas conspiracoes; os jogos de poder entre... Com este livro Larsson introduziu uma side-story que tinha duvidas se seria alguma coisa de jeito. Resultado - foi tambem incrível. Se em outros livros passava o tempo a pensar quantas paginas faltavam para acabar um capitulo, comecei a perder o habito com esta trilogia - o ritmo e as divisoes dentro de capitulos eram tao boas que na... RAX is an enchanting and lovely book. It's ostensibly for kids (10-14) but meaty enough for just about anyone. It's a little bit coming of age, a little bit quest, a little bit birth of the hero, and contains the neeces... In a time of war a boy is separated from his pet fox - a creature he had saved from death. Told in alternating chapters, the boy and fox travel to be reunited, and discover their true selves in the journey. It might be a good gift for yourself, it would certainly be a good gift for a young reader. | en-GB    | 3152          |

| 7  | 4       | We read this as a bedtime story. I've read it a couple of times before. I remembered a couple of bits from the early and late chapters. Dianne rates it 4 stars and Veronica only 3. I think she'd have preferred mor...  | eng      | 222           |
| 8  | 4       | I'm wary of books by James Patterson with a co-author because I'm worried the book will be written by the co-author and they put Patterson's name on it so it sells. This book did have a different feel than som...  | eng      | 642           |
| 9  | 4       | Some sort of adult version of The Perks of Being a Wallflower with a romantic angle. A story of how two equally messed up people found comfort in each other. I love how Pat kept his optimism through out sto...   | eng      | 478           |

| 11 | 2       | Last Chance Hero is the ninth and last book in the Last Chance series. Unfortunately, it was a DNF for me. The book is adequately written and professionally edited. The rather unoriginal plot is told from several different POVs and it becomes confusing and disjointed. But the big turnoff for me was the characters: one was a spoiled bitch, one a guilt filled mess and the Hero was seriously p***** whipped. They were an unappealing group of personalities thrown together in ... Unfortunately, this is a book that I can't recommend.  | eng      | 594           |

| 14 | 5       | 5 stars is definitely not enough. The book is fantastic. I seriously couldn't stop reading. Great storyline, and characters with depth. They grow thru the story. Definitely recommending   | eng      | 61            |
